How Green Economy Fit With Indonesia’s Environmental Policy

National Development → pro-poor, pro-growth, pro-jobs and pro-environment

Long Term National Development Plan
(Law 17/2007)

Medium Term NDP
(National Priorities)

Environmental Protection and Management
(Law 32/2009)

- Emphasizes on RE & internalizing the externalities
- Promotes various instruments:
  - EIA/SEA
  - Environmental Standards
  - Economic instruments,
    - etc
- Stronger commitment and enforcement

Source: modified from Fauzi, A, 2010
Challenges

POLICIES as well as MARKET FAILURES
(subsidized growth, distorted energy prices, no internalized of externalities)

• Reshape Fiscal and Financial Infrastructure
  • Food Security
  • Energy Security
• Moving from Single Track to Multiple Track

INTERVENTIONS FOR MARKET CORRECTIONS AND CHANGING BEHAVIORS
GREEN ECONOMY- 3 component

Sustainable use of natural resources, internalizing cost of natural resource depletion/environmental degradation, efforts on alleviate the poverty, creating decent jobs, and ensuring sustainable economic growth”

Expected behaviours for GREEN ECONOMY

- LOW CARBON AND LESS HAZARDOUS WASTE
- SUSTAINABLE USE OF BIOLOGICAL DIVERSITY
- MAINTAIN NATURAL CARRYING CAPACITY

I. ROAD MAP OF LOW CARBON (National/Regional Action Plan on GHG emission Reduction (RAN GRK))

II. Update IBSAP (Indonesia Biodiversity Strategic Action Plan)

III. SPATIAL PLANNING emphasizing on Environmental Carrying Capacity

YOUTH in crucially important for the greener Indonesia

Source: MoE, 2012 and Bappenas, 2012
CHANGING BEHAVIOUR TOWARD GREEN ECONOMY

1. Agriculture
2. Building
3. Urban/Cities
4. Energy
5. Fisheries
6. Forestry
7. Manufacture
8. Tourism
9. Transportation
10. Waste
11. Water

1. Renewable energy,
2. Low carbon transport,
3. Energy efficient buildings,
4. Clean technology,
5. Improved waste management,
6. Improved freshwater provision,
7. Sustainable agriculture and forest management,
8. Sustainable fisheries.

TRANSITIONAL PROCESS

Green jobs

For Greater Involvement of Youth

Youth has been one of important stakeholders of sustainable development in Indonesia. Efforts has been taken yet further development and enhancement needed.

**EXISTING**

- **Access to Information**
  - ACIL (Aku Cinta Lingkungan Hidup), a dedicated website for Children and Youth on environment
  - Children and Youth Environmental Week (annually)

- **Education for Youth and Children**
  - “Adiwiyata” an Green School Initiative and Award, aimed to earlier educate green-lifestyle to youth
  - Green Camp for Youth, including 3-R related of training

- **Youth in International Fora**
  - Youth Climate Forum
  - G20 Youth Program
• **Young Socio-entrepreneurship**
  – Eco Youth Program, jointly with private sector, a green innovation competition
  – Climate Smart Leader, jointly with NGOs, a green innovation competition

• **Financing Scheme for young entrepreneur**
  – Started 2011, “Gerakan Kewirausahaan Nasional” (National Entrepreneurship Movement), targeted on young entrepreneur to enhance economic growth. i.a. business incubator and technology innovation jointly with universities;
  – Credit program for “Koperasi Pemuda” (Youth Cooperative);
  – Internship Program for Youth, a public private partnership, in order to “link and match” between formal education and business sector
  – A “Syaripreneur”, a joint program with Islamic Universities for potential young entrepreneurship in syaria business.
The Voice of Children and Youth for Rio+20, an outcome of 2011 Tunza International Children and Youth Conference (Bandung Declaration).

Post Rio+20, THE FUTURE WE WANT
Para 62, encourages each country to consider the implementation of green economy policies in the context of sustainable development and poverty eradication, in a manner that endeavours to drive sustained, inclusive and equitable economic growth and job creation, particularly for women, youth and the poor.

Continue current efforts, with emphasizing on:
• Capacity Building: Education, Information
• Innovative Financial Schemes: Socio-entrepreneurship
Vision beyond Rio+20

• Common vision, missions and objectives contained in “The Future We Want” can only be achieved with a broad alliance of people, governments, civil society and private sector, all working together;

• Development Agenda beyond Rio+20 need to include various sets of value of the three pillars of sustainable development (social-economic-environment);

• Green Economy as one of important tools need to complement with many others important tools as to ensure sustainable patterns of consumption and production.

• Although Indonesia is still facing challenges in ensuring poverty eradication as well as in managing the environment, Indonesia continue commit and strengthen its efforts towards “sustainable growth with equity”.

Closing Remarks

• Sustainable Development can only be achieved with a broad alliance of people, governments, civil society and private sector, all working together to secure the future we want for present and future generations.

• Indonesia is still facing challenges in ensuring sustainable use of natural resources as well as in managing the environment. Hence, the Government of Indonesia together with all stakeholders shall continously and consistently develop and implement sound policy and programme towards sustainable development.
Thank you
